P846
Potassium Phosphate, Monobasic Anhydrous

Synonym: Monopotassium Phosphate; Potassium Dihydrogen Phosphate
CAS: 7778-77-0
Formula: KH₂PO₄
Molecular Wt: 136.09

Properties
Form: Powder
Appearance: White Crystalline
Application: Plant Macronutrient
Solubility: Water
Typical Working Concentration: 
Storage Temp: Room Temperature
Storage Temp of Stock Solution: 
Other Notes: Plant Tissue Culture Tested

Application Notes
