The material described in this certificate was manufactured in the United States of America and contains synthetic, plant-, and animal-derived components. The plant-derived components are 1) banana puree spray-dried with maltodextrin at 215 °F for 15-30 seconds under high pressure, and 2) charcoal from coconuts originating in Sri Lanka. The animal-derived component in this product is tryptone which was manufactured from bovine milk originating in New Zealand. The milk was hydrolyzed with an enzyme obtained from porcine (pigs) of USA origin. The product contains 1.6% (1g/L) tryptone.
